Independent filmmaking often takes place outside Hollywood, or other major studio systems. An independent film or indie film is a film initially produced without financing or distribution from a major film studio. Creative, business and technological reasons have all contributed to the growth of the indie film scene in the late 20th and early 21st century. On the business side, the costs of big-budget studio films also lead to conservative choices in cast and crew. There is a trend in Hollywood towards co-financing over two-thirds of the films put out by Warner Bros. in 2000 were joint ventures, up from 10% in 1987.¹⁴ A hopeful director is almost never given the opportunity to get a job on a big-budget studio film unless he or she has significant industry experience in film or television. Also, the studios rarely produce films with unknown actors, particularly in lead roles.

Impact of the COVID-19 pandemic on cinema : The COVID-19 pandemic has had a substantial impact on the film industry in 2020 and 2021, mirroring its impacts across all arts sectors. Across the world and to varying degrees, cinemas and movie theaters have been closed, festivals have been cancelled or postponed, and film releases have been moved to future dates or delayed indefinitely. Due to cinemas and movie theaters closing, the global box office has dropped by billions of dollars, streaming has seen a significant increase in popularity and the stock of film exhibitors has also dropped dramatically. Many blockbusters originally scheduled to be released since mid-March 2020 have been postponed or canceled around the world, with film productions also halted. This, in turn, has created openings for independent cinema productions to receive wider exposure.¹

Streaming services The BBC noted that the popularity of streaming services could increase, especially if more people are isolated at home,⁸⁵ with The Guardian suggesting that non-blockbuster films may be sent to streaming more quickly than anticipated after release, to catch this market.⁷ One popular film to stream was 2011's Contagion, which moved up from

being the 270th most-Watch ed Warner Bros. film in December 2019 to become its 2nd most-Watch ed film in 2020 by March 7²¹8 and entered the top 10 on iTunes film rentals,²¹⁹ ostensibly due to the similarities its story bears to the outbreak.⁷²¹⁸²¹⁹ The stock of increased in 2020 by March 12. The platform had released its original docuseries *Pandemic: How to Prevent an Outbreak* at the end of January 2020.⁸¹ Disney+ went live in India on March 11 via its domestic service Hotstar, eighteen days before it was set to, though Disneys shares had fallen by 23% on March 9.⁸¹
